

HARSH YATINKUMAR JETHWA

Vadodara, Gujarat

harshyethwa2020@gmail.com | +91-7990603019

LinkedIn: <https://www.linkedin.com/in/harsh-jethwa-a2020531b/> | GitHub: <https://github.com/jethwa76>

PROFESSIONAL SUMMARY

Computer Engineering student with strong foundations in Data Structures, Algorithms, and full-stack development. Built web applications using React, Node.js, MongoDB, and REST APIs, and participated in national-level hackathons including SIH and PU Code Hackathon. Actively solving competitive programming problems across LeetCode, CodeChef, and Codeforces, with a focus on backend engineering and scalable software systems.

EDUCATION

Bachelor of Technology – Computer Engineering

Parul University, Gujarat | 2024 – 2028

CGPA: **8.82 / 10**

TECHNICAL SKILLS

Programming Languages: Java, C

Web Development: HTML, CSS, JavaScript, React.js, Node.js, REST APIs

Databases: MongoDB, MySQL

DSA: Arrays, Strings, Linked List, Stack, Queue, Trees, Graphs, Recursion, Dynamic Programming

Tools & Concepts: Git, GitHub, VS Code, Agile Development, Version Control, Debugging.

PROJECTS

1. Personal Portfolio Website

- Designed and developed a responsive personal portfolio website to showcase projects and technical skills
- Focused on clean UI/UX, responsiveness, and performance-oriented frontend implementation
- Tech Stack: HTML, CSS, JavaScript / React
- live demo : <https://jethwa76.github.io/portfolio/>

2. TaskFlow – Full Stack Task Management System

- Built a full-stack task management system for organizing workflows and tracking productivity
- Implemented CRUD operations for task creation, updates, deletion, and status tracking
- Used React.js, Node.js, MongoDB, and REST APIs to build the application architecture
- live demo : <https://taskflow-2-jikw.onrender.com>

3. Scanify – QR Code Scanner & Generator

- Built a web application to generate and scan QR codes for text, URLs, and encoded data
- Integrated scanning via camera/image input for real-time decoding
- Tech Stack: JavaScript, React, QR code libraries/APIs
- Live demo : <https://jethwa76.github.io/Scanify/>

HACKATHONS & ACHIEVEMENTS

- HackBaroda Hackathon** – Contributed to prototype development and rapid implementation in HackBaroda Hackathon.
- PU Code Hackathon** – Built an MVP under time constraints during PU Code Hackathon.
- Vibe with India Hackathon** – Developed solution under deadline pressure focused on real-world impact and implementation
- Smart India Hackathon (SIH)** – Collaborated in a multidisciplinary team to develop a prototype solution for a real-world problem statement within strict timelines.

COMPETITIVE PROGRAMMING

- Active participant in LeetCode Weekly Contests
- Solved 150+ LeetCode problems, 100+ CodeChef problems, and 100+ Codeforces problems
- Strong problem-solving skills in arrays, strings, hashing, recursion, and dynamic programming
- Regular participant in CodeChef Starters, continuously improving problem-solving skills.
- Strong proficiency in solving algorithmic problems involving Arrays, Strings, Hashing, Trees, Graphs, and Dynamic Programming.

CERTIFICATIONS

- DBMS – Codetantra [DBMS.pdf](#)
- Computer Networks and Internet Protocols – NPTEL [computer networks.pdf](#)
- API Development: Web API Security – Infosys Springboard [API Development Web API Security.pdf](#)
- Generative AI Foundation – Infosys Springboard [AI.pdf](#)
- Operating Systems – Cisco Networking Academy [opreating system basic.pdf](#)

ADDITIONAL INFORMATION

- Strong interest in Software Development, Backend Engineering, and System Design.
- Consistently solving Data Structures & Algorithms problems on LeetCode, CodeChef, and Codeforces.
- Actively preparing for Software Development Engineer (SDE) internships and full-time roles.
- Leetcode profile : https://leetcode.com/u/harsh_jethwa/
- Codechef profile : https://www.codechef.com/users/harsh_jethwa76
- Codeforce profile : https://codeforces.com/profile/harsh_jethwa
